SKILLS

- HTML/CSS
 - React.js
- MongoDB
 - Node.js
- Next.js
 - TypeScript
- JavaScript
 - Git/Github

EDUCATION

Bachelor of Computer Application 2021 – 2024
Saurashtra University – Rajkot, Gujarat
CGPA : 7.76

Master of Science in Information Technology(2024 –2026)
Saurashtra University – Rajkot, Gujarat
(Pursuing)

EXPERIENCE

Asquare Tech Lab LLP
Full Stack WebDeveloper | 6 Months Experience

MAY 2024 – OCT 2024
(6 Months)

- Developed dynamic, interactive, and responsive web applications using HTML, CSS, JavaScript, and React.js, improving user engagement by 30%.
- Designed and maintained user-friendly interfaces, ensuring 100% cross-browser compatibility and mobile responsiveness, leading to a 25% decrease in bounce rate.
- Integrated RESTful APIs and managed data using Thunder Client for efficient request-response handling, reducing load times by 40%. Built and optimized reusable React components, implementing React Hooks (useState, useEffect) for seamless state management, reducing redundant code by 35%. Implemented CSS animations, transitions, and media queries, enhancing UI interactivity and user experience.
- Applied best practices in UI/UX design, ensuring accessibility, usability, and performance optimization, resulting in 20% higher user retention..

Atmia Education & Just Abroad
WebDeveloper

MAY 2025 – PRESENT
(1+ year)

- Develop and maintain web applications and platforms for Atmia Education and Just Abroad.
- Build responsive, user-friendly interfaces using React.js and Next.js.
- Develop and integrate backend services using Node.js, Nest.js, and MongoDB.
- Collaborate with teams to implement new features, optimize performance, and enhance user experience.
- Work on full-stack development projects, including educational portals, dashboards, and business websites.
- Participate in application deployment, maintenance, debugging, and performance optimization.
- Contribute to multiple live projects, ensuring scalability, security, and efficient functionality.

PROJECTS

AtmiaAdmin – Educational ERP & Management Platform

Technologies: Next.js, React, TypeScript, Tailwind CSS, Framer Motion

- Developed a responsive administrative ERP platform for managing courses, exams, schedules, question banks, and educational content.
- Built reusable DataTable components with search, filtering, and pagination, improving scalability across multiple modules.
- Implemented adaptive difficulty logic that dynamically adjusts test sections based on user performance.
- Designed relational database models for users, subscriptions, support tickets, and exam result tracking.
- GitHub Repository: <https://github.com/Vishwa12003/AtmiaAdmin>

JustAbroad – Adaptive Learning & Exam Preparation Platform

Technologies: Next.js, TypeScript, Tailwind CSS, Prisma, SQLite, Zustand

- Engineered a full-stack exam preparation platform for IELTS, GRE, PTE, and NEET with dedicated learning modules.
- Developed a full-screen mock test engine featuring countdown timers, automated grading, and performance analytics.
- Implemented adaptive difficulty logic that dynamically adjusts test sections based on user performance.
- Designed relational database models for users, subscriptions, support tickets, and exam result tracking.
- GitHub Repository: <https://github.com/Vishwa12003/JustAbroad>

Narsan Arts – Creative Studio Portfolio Website

Technologies: Next.js, React, TypeScript, Tailwind CSS, Framer Motion

- Built a premium portfolio website featuring modern UI/UX, custom animations, and responsive layouts.
- Developed interactive 3D parallax effects and motion-driven components using Framer Motion.
- Created dynamic accordion-based service sections with smooth transitions and custom SVG-based visual effects.
- Optimized performance using Next.js image optimization, lazy loading, and reusable component architecture.
- GitHub Repository: <https://github.com/Vishwa12003/NarsanArts>

iNoteBook – A Secure Note-Taking Web Application

Technologies: HTML, CSS, JavaScript, React.js, MongoDB, Thunder Client

- Developed a web application that allows users to create, edit, and delete personal notes after authentication.
- Implemented user authentication and authorization using JWT, ensuring secure access to user accounts. Designed a responsive and interactive UI using React.js for a seamless user experience. Integrated MongoDB as the database to efficiently store user accounts and notes. Admin functionality includes user management, authentication handling, and note collection management (fetch, add, update, delete).
- Tested API endpoints using Thunder Client to ensure smooth backend functionality. This is the GitHub repository link: <https://github.com/Vishwa12003/inotebook>.

News App

Technologies: React.js, HTML, CSS

- Developed a responsive news application using React.js, integrating the News API to fetch and display real-time news articles. The app features category-based navigation (e.g., Business, Technology, Sports).
- Used React Router for navigation, Axios for API requests, and styled components with Bootstrap to create a modern, user-friendly interface.
